BEGIN THE DATE

O.K. all of you groovy, sexy people out there, I have a message for you. Safe sex is sensual, erotic, energetic, atmospheric, cosmic and best of all not life threatening. I am inviting you to listen to a story about Naomi and Rich, two smart lovers who make love the safe sensual way.

Both characters could be any skin color and age. They ultimately could be of any economic status or level of education. They could live in small town U.S.A. or abide in a huge metropolitan city. They each could be chic, a college preppie, a punk rocker, a new ager, a musician, an artist, an entrepreneur, a homemaker, a craftsman, or doctor or lawyer, a sci-fi technician, or just a plain laborer, but one thing that they have no control over is a strong natural desire for sex.

A typical outfit for Naomi is any long or short skirt in stretchy knit with a matching fitting blouse. She wears great fashion earrings and necklaces. Underneath she matches French-cut pantyhose over a sexy thong panty or pretty silky brief, topped with a titillating push-up bra and a sheer lacy camisole. She always wears her favorite perfume and her hair is always clean and so well groomed.

A typical outfit for Rich is a crinkly satin-like rayon blend sports outfit in a geometric pattern in cool colors. Underneath he wears the sexy men's bikini briefs, sometimes in satin or cotton, or boxer shorts, in wild patterns and in the new

color schemes that surprise his partner. His cologne is hot and he too is always fresh and sexy clean for his date.

A simple, relaxed, but highly romantic and sexually stimulating date for Naomi and Rich goes something like this... Naomi is at home on a Friday afternoon. She is perched at a desk mulling over storylines for an English essay. The window is half open and scents of spring air fill her room. The phone rings, she picks it up, it's Rich. Her heart beats fast while she breathlessly waits on his every word. She feels her legs tingle and the inside of her thighs get warm. Butterflies somersault in her tummy and she thinks to herself, "I can't wait to see him." Rich tells her in a low, penetrating voice, "I would like to see you tonight and I won't take no for an answer. Naomi, be ready at 7 pm. I'll pick you up and we will have a great time." Naomi is so excited, smiling and sweetly, but passionately tells Rich, "I'm all yours from beginning to evenings end..."

When Rich arrives, Naomi is happy to see him and she has her perky, playful attitude on. She hops in his car, lays a sweet, luscious, lip tingling kiss on him and he swings both strong arms around her, pulling her close to him, while tonguing her lips and chin and he tickles her with is tongue up and down her neck. Of coarse Naomi is enjoying this and every hormone in her body begins talking to each other. Naomi is wet and her desire is flowing. Rich can feel her

hotness through every cell sensation in his body and his penis gets very, very, very hard.

Rich pulls himself away from her, turns the ignition on and they begin to drive toward the freeway. They exchange light details about their week with lots of loving concern for each others lives and give each other words of love and support while they hold hands and glance into each others eyes.

It's a sweet scene on the freeway at dusk. All headlights are beaming, cars are humming, quickly moving and the pace is exciting and the closer they get to Rich's place the more steamy each moment gets. They hold hands so gently, each one trying to impart that sensuality that they both can't wait to express to each other. It has been 20 minutes. They pull into the driveway. Rich slowly turns off the lights, then the car. He leans towards Naomi and gently rubs his left hand along her thigh while he kisses her lips, while strongly squeezing her hand in his right hand grasp.

Not two minutes later they are in his living room. Rich has her favorite music ready to be played. Hot popcorn, melted butter, cookies, candy, and cold beer are on the table. The sweet smell of vanilla candles, scent the room. The lights are dim. He has a present for her. It's a fluffy white polar bear with a bottle of new perfume tied ever so snug around its neck with a white ribbon.

She gently unties the bow and takes the perfume, opens it and caresses her neck and wrists and gently lifts her shirt and touches the perfume bottle to her navel. "It smells so good and I like it a lot. Thank you so much. I love my polar bear. I'm going to name him White Satin," Naomi says genuinely with sweet satisfaction in her eyes.

While the music plays, they move towards each other, sensing the others mood, the other's needs, each weighing the moments, thinking how they will satisfy the other, make the other feel it, want it, love it, come in it and enjoy it, endlessly so, making the hot, hot feelings better and better.

They begin to kiss, tonguing each other's lips and sucking the tips of each other's tongues, roaming hands grab and pull buttocks, fingertips sensually slip over clothing rubbing at nipples, and she is squeezing his hard on from outside of his genes. He pulls her top off revealing two very pointed nipples peeking out of her creamy white push-up bra. He lays her down onto the floor where she glides onto a soft comforter and two big leather pillows. He raises her skirt tickling her thighs and revealing her French-cut pantyhose and silky thong. He lets her lay there on the floor writhing. She lets her pretty fingers caress her nipples and glide over her mound. In anticipation he stands over her, he strips his genes off and

then takes a straddle stance in front of her, he grabs his own penis and begins to massage himself until he is erect. She stands with her back to him; she bends over and slips her pantyhose down her legs and over her toes. While she pulls her wet thong down her legs, he rubs his penis over her buttocks that are soft as butter and smooth as silk. She turns to him, bends to her knees and kisses his thighs and in a pleasing motion licks his balls, running her hands up and down his buttocks, spreading his cheeks and blowing hot air against his penis. He takes a bottle of warm lemon-lime soda, opens it and pours it down the cleavage of her breasts, it runs down her beautiful soft tummy flowing over her hot spot and into and through it, bubbling and tingling her. It reaches her thighs. He begins to lick her all over; he chews and sucks her nipples. She is wet and wildly excited. He fingers her hot spot with a yellow rubber over his middle finger, squeezing her ass cheeks, licking her lips and sucking her tongue. His cock is hard and throbbing, he takes his rubber from its package, slips it on while she tongues and licks his creamy prophylactic covered, hard, hard, very hard penis. She sucks him over his rubber massaging his buttocks while she sucks and spreads the cheeks of his ass and with a full licking motion; she tongues his balls and rubs his legs. He lays her down and gently sucks her nipples while he rubs her wet come all over her hot spot, he puts two fingers in a rubber... they are both ready to reach orgasm. He takes his strong arm and

slides his hand under her back, arching her ever so slowly.

She, lying on her back, spreads her legs; he kneels beside her, pressing his strong thighs against both sides of one of her own soft, buttery, sun-toned thighs. He takes that strong arm and slides his hand under her back, lifting and arching her towards him. Her pretty sweet fingers, slippery from her oozing come, touch her lips of her own desire. She licks her lips; the sight of her pink tongue sends his hormones into an electrifying frenzy. He massages his cock; he rolls his rubber down and off his shaft. While she is purring and cooing like a cat, he watches her as she reaches her orgasm. Her body tenses for a moment and then she relaxes... her orgasm reached, he takes a long look at her. The sight of this female laying under him quivering and coming sends him wild. He sends out his come and sprays it over her navel. The moment she feels it on her, she smiles and then sighs. She rolls over, exposing her sweet, cute buttocks. He locks his arms around her, and then in this orgasmic embrace, they drift off to sleep...  
I Safe Sex You Because I Love You...

**The End of the Story, but Read On  
there's More!**

**Next: EVERY MINUTE, SOMEONE  
SOMEWHERE IS HAVING SEX. GET IT WHILE  
IT'S HOT!**

If at the end of your sex time, you can find the vine, the cord that links you to what is evermore or whatever was left behind, having a present family or not, you know people.

Will you remember to breathe, contract, pulse, climb, walk, and run like you did when you were young?

Will you remember each time you had sex, sex, sex? It's not about doing it on the couch, or in the kitchen or in the bathroom, or upside down or sitting down, or right side up, or standing up, or how many times, or how many ways.

It's about looking at life at the end of your time with sex, being proud of what you accomplished, enjoy every time, all the varying passions, depths and meaning, even children or not. And change with it.

**BE ADVENTUROUS...Choose new or unusual rooms and settings, enjoy the naughty natural norm of sexual attitudes, morals and beliefs as well as the exotic, if you please.**

**SET THE ATMOSPHERE...Use mood enhancing candles and indulge in fragrances, lavish in soft or silky or satin fabrics that sooth the body and caress the senses.**

**EXCITE THE BODY...Splash and massage with creamy lotions, sweet smelling oils and scented waters that titillate and exhilarate at**

**the same time. Bubbling sodas, syrups and flavored gels are fun. Use them with PURPOSE, PASSION AND PLAYFULNESS.**

**ENJOY YOUR BODY...Take long, warm, oozing, bubble baths together. Take brisk, soapy, spongy, splashy showers together.**

**BE SPONTANEOUS! But always be prepared for steamy, sensual, safe sex.**

**SEX is not FOOD. FOOD is not SEX. Food when eaten, strengthens your body's energy and makes you feel healthy, more energy, hence, fertile and ready to have sex. But the automatic response to food, the feeling of fertile (sexy, horny) only will last during your peak reproduction years somewhere around 21 to 40. Then you have to take specially formulated vitamins for males and females to promote sexual performance or ask your doctor what he or she suggests. So don't eat too much hoping for a better sexual response. The whole result of sex is a combination of many bodily hormones and reactions and emotional readiness. Sex can be different every time, even with the same person. Enjoy sex, but be flexible about the results. Use it or loose it. Some men and women are having sex at age 70 and above. And without doubt, a baby is the highest result of sex. Everything else is practice!**

**WHEN YOU BREAK YOUR VIRGINITY... Be prepared to experience a new person in your life... closer than your non-sexual relationships but not as close as your blood relatives. You will feel a mind-body-spirit change. Maturity is good.**

**HAVING SEX WITHIN THE LAW...Will promote peace of mind about sex. Sexual harassment is out. Natural laws apply too, like cleanliness and natural frequency of sex. If you are over 18 years of age don't have sex with people under 18 years of age, because they are minors and you can get in trouble. Safety is good.**

**PRENUPTIAL CONTRACTS... Speaking about the law, a prenuptial contract protects you, your life's work and children if you have them, if your spouse succumbs to any or other than the following: sweet talking women, sweet talking men, gambling, illegal drugs and habits and lifestyles, bad business deals in their name and various levels of laziness or squandering of your net worth. Have a lawyer draw up a fair contract and have their side read it to start the negotiating process. This way everyone is safer.**

**BIZARRE SEX ACTS...And sex that is not the majority will make you feel the opposite, in a minority. Live with it or stay in the mainstream. Balance is good.**

**IF YOU DON'T WANT...to do a kind of sex you should be able to say no once. If you change your mind yourself based on new research or positive information, fine, but if the person persists, ask to seek counseling with them, they might compromise with you. Relationships are good.**

**DON'T BE OBSESSED...With looks and body weight. Even the most attractive people change as they get older or could change sooner due to situations that arise in life. Moderation is good.**

**OUR SOCIETY...Always needs good, intelligent people. If you don't have or want to have children, donate to your community in another way. Harmony in life is good.**

**USE LATEX CONDOMS & VITAMINS...See your doctor or clinic for medical safe sex information. Science is good.**

More Suggestions:

### **Thinking About Sex**

Sex: Will I have it, when to have it, where to have it, have it, don't have it, should I have it, I had it, it was good, it was bad, it was fast, it was slow, I remember it, I forgot it, will it go away, will it come back, all in all, I think I will think about it

tomorrow? You get the idea, we think about it often.

## **Sex is Natural and Healthy**

Sex is natural and healthy, just use good manners, use safe sex techniques and relax, it's different every time you do it. Your thoughts and emotions will be just as varied as they are when relaxing. Every day is different, same for sex, each time is different. Enjoy them all!

## **Consensual Sex**

Search Consensual Sex in a Wikipedia Summary. Read it in good health, yes watch out for miners, it's against the law and while you are at it, keep those fetishes in check. The illegal and bizarre sex acts are going to slow you down. There is plenty of fun in the legal realm of sex!

## **Natural Sex Boosters**

Read Up on Herbs that Enhance Sex. The list of herbs is very complete. Search for a website. Sex when you are 20 years old is a lot different than sex when you are 80 years old. Don't laugh; yes people have sex at all different ages and for a variety of reasons.

## **Sex is More than Meets the Eye**

Besides the hopes to create a baby, besides the thousands of sexy visual stimuli that greet you every day, besides the intentional or not intentional interaction from others, besides your own wanton desire great or small, there is a lot that goes into sex as an activity. Invest some time in your study of sex, even for your own sake.

### **OK After Babies Then What?**

Sex can be anything from sacred to a sport event. People are curious, and when they are young they jump into it, sometimes unprepared and sure enough a pregnancy can occur.

**Then oh what to do next?** **HAVING A BABY IS A BIG DEAL**, families join literally in human flesh, thousands in costs, a sort of personal mind body spirit connection platform, a pod meaning a group, develops between you and your spouse and offspring. Keep it going nicely, it's well worth it. Some people can't stay together. They fight, say things, break up, then they have what is called either an atypical family (when you live with one parent a grandparent, relative or other person but everyone is happy) or it's called a dysfunctional family (when you live with one parent a grandparent, relative or other person but everyone is not happy) try for happiness!

Are you married if not then what? Hence, birth control has been trying to alleviate unwanted pregnancies for years. Churches and groups may oppose, some do, and some don't. The human race marches on, and on.

**Bottom line...**children are yes, very special and yes sacred and the proof of your lineage, your bloodline, your family. Enjoy their talents, help them all you can. Then there is the afterlife and all the work you put in becomes meaningful for the rich as well as the poor. Yes poor people have afterlives too.

**So, any sex that does not produce a baby is well, practice.** But don't have a baby every time, I agree with the pro birth control advocates. Babies are expensive. So have fun and respect your sex! Keep practicing nicely.

### **Don't Promise to Marry to Get Sex**

Yes in some countries it is a crime to promise to marry someone if they give you sex. You may have experienced such a situation and learned from it. Give sex because you want to and stay in control of yourself. A marriage should be a real thing, with a real ceremony and everything in writing, a marriage license and maybe a prenuptial contract etc. None of this married in spirit junk. Real paperwork or it's not real.

## **Sexual Harassment and Legal Problems**

Don't do the harassing and don't harass anyone it can cost you your job and money in legal fees.

Facing Discrimination? Free Legal Advice

Today the workplace can be a wonderful place. The relief of having a paycheck, a home away from home with work friends and a pleasant feeling that you can buy the things you need. What happens if someone unjustly tries to take your job away due to your sexual preference or uses age or other types of discrimination or attempts to set you up for a sexual harassment case? Get some legal advice.

## **Sex and Biology**

Let's begin the discussion. Let's talk about sex. Let's talk about the true biology of sex and the separate needs of men and women. Go to the blogs; go to the forums, and even your politicians. Get the word out that we need social change about the way we feel and what our limits are about subjects concerning sex, birth control, same sex marriages and same sex unions, and all the issues concerning sex!

I Safe Sex You, Because I Love You... Yes, it's a Hot Date

**After all the above - To wind down, here is a Poem, Titled: I Safe Sex You, Because I Love You...**

~~~~~

How many obstacles are there  
in front of the sexual act?

Is it vanity, time, place or season? What's the  
reason?

Is it Crabs, VD, Gono, or Syph, Herpes  
or the big one...the AIDS VIRUS?

A sexual high can be a part time priority,  
but the AIDS Bug sets its own priorities...

You can out prioritize when you say...

I Safe Sex You, Because I Love You...

Sex and your libido are real you know,  
put your hormones in motion...

I Safe Sex You, Because I Love You... Yes, it's a Hot Date

Break into the notion to move in gyrations,  
that lead you to loosen those inhibitions to...  
oh...I'm enjoying it...

I Safe Sex You, Because I Love You...

Adaption is human survival instinct,  
we may never become extinct, so...  
until the vaccine makes the scene...

I Safe Sex You, Because I Love You...

Then know, that whether it's lust,  
vice, or nice, treat it right...

all night, it's hot, red hot, so hot, don't stop...

I Safe Sex You, Because I Love You...

So whether you are just having hot fun sex or  
you are looking for what the movies and plays  
are written about, the family of man, the silver  
lining, the tree of life, or catching a glimpse of a  
rainbow during sex. In each of the stories there  
is a part of you and your relationship to your sex.

I Safe Sex You, Because I Love You...Yes, it's a Hot Date

Enjoy!
